G+ BY GRAM PROFESSIONAL

MADE IN DENMARK

MAXI 710 TWIN

710 TWIN is robust and reliable, designed for intensive use in professional kitchens with frequent door openings and high demands on temperature stability.

The TWIN model has a width of 2/1 GN, allowing two 1/1 containers to be placed side by side. This supports good ergonomic principles and provides a clear overview and easier access to the contents. The wide cabinet is ideal for kitchens with plenty of space and a need for large refrigeration and freezing capacity.

The chiller operates within an extended temperature range of -5 to + 12 °C, while the freezer covers -25 to -5 °C, ensuring great flexibility and a variety of options in daily operations.

The cabinet is equipped with an intuitive and intelligent controller for optimal operation and low energy consumption, as well as an ergonomic design with a full-length door handle, a robust foot pedal and a self-closing mechanism. The rounded corners and removable magnetic gaskets make it easy to maintain optimal hygiene.

The intuitive and intelligent control panel is easy to operate, optimises operational reliability and ensures low energy consumption.

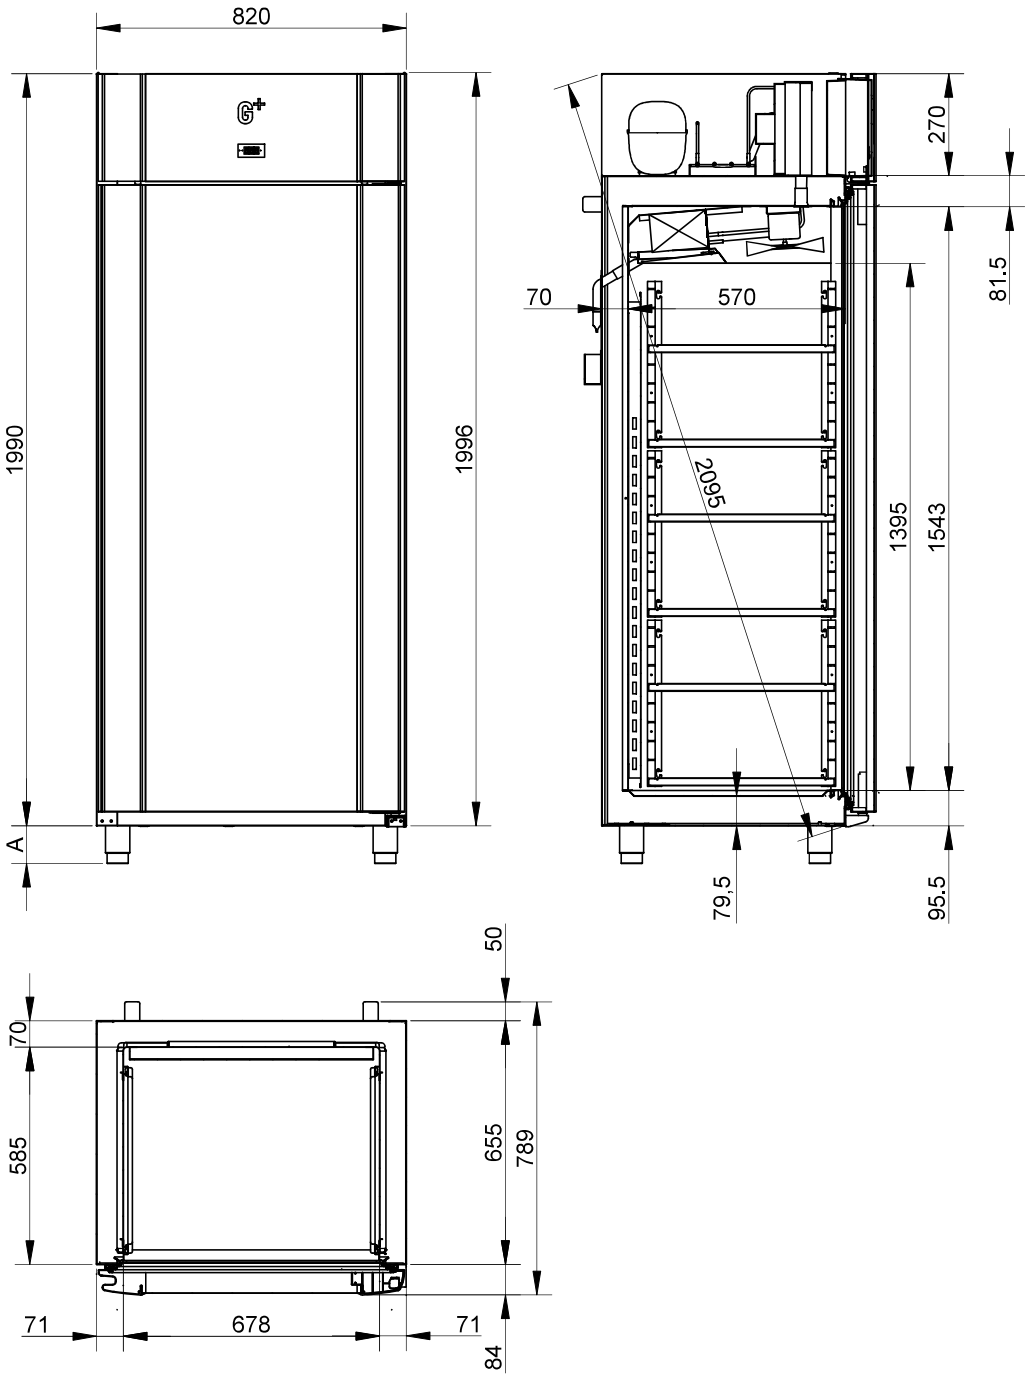

Delivered in the well-known high quality from Gram Professional, ensuring stable operation and long service life.

Standard equipment:
- Stainless steel interior and exterior
- 4 nylon coated wire shelves
- Practical and reversible pedal door opener for easy access
- Right hinged reversible door with self-closing function and lock
- LED lighting
- Removable heavy-duty door gasket
- Adjustable legs (135-200 mm) or castors (128 mm)

Optional extras:
- Additional wire shelves and support rails
- Perforated shelves for small item storage
- Left-hinged door
- Various castor and leg options
- Available for remote installation on request
