G+ BY GRAM PROFESSIONAL

MADE IN DENMARK

MAXI 650 MIDI

The 650 MIDI is robust and reliable, built for the demanding everyday use in professional kitchens. It offers low energy consumption, high temperature stability and rapid temperature recovery, even with frequent door openings.

The compressor is located at the bottom of the cabinet, which allows the contents to be stored at a user-friendly height, making them even more easily accessible thanks to the wide GN size (2/1 GN), which accommodates two 1/1 containers side by side.

As the model is both low in height and shallow in depth, it can be placed in areas with low ceilings and in narrow corridors.

The chiller operates within a temperature range of -5 to + 12 °C, while the freezer covers -25 to -5 °C, ensuring high flexibility and many options in daily operations.

The design is thorough and ergonomic, featuring a full-length door handle and the rounded corners and removable magnetic door gaskets make it easy to maintain optimal hygiene.

The intuitive and intelligent control panel is easy to operate, optimises operational reliability and ensures low energy consumption.

Delivered in the well-known high quality from Gram Professional, ensuring stable operation and long service life.

Standard equipment :
- Stainless steel interior and exterior
- 4 nylon coated wire shelves
- Right hinged reversible door with self-closing function and lock
- LED lighting
- Removable heavy-duty door gasket

Optional extras:
- Additional wire shelves and support rails
- Perforated shelves for small item storage
- Left-hinged door
